The Training & Placement Department of Anil Neerukonda Institute of Technology & Sciences (ANITS) manages campus recruitment activities for students and coordinates with various software and core companies. In this laboratory assignment, students will design and develop a Static Campus Placement Application using HTML5 and CSS3 only.

The application should present placement-related information in a professional manner while demonstrating proper webpage structure, semantic HTML elements, responsive layouts, forms, navigation menus, and attractive CSS styling.

The website should resemble a real institutional placement portal.

Problem Statement

Develop a Campus Placement Application for
Anil Neerukonda Institute of Technology & Sciences (ANITS)
using only

- HTML5
- CSS3

The application should provide students with placement-related information including:

- Placement Department
- Student Registration
- Student Login
- Company Information
- Placement Statistics
- About Department
- Contact Information

Students must use only

HTML5

CSS3

Project Folder Structure:

CampusPlacementApplication/

```
|
|— index.html
|— about.html
|— register.html
|— success.html
|— login.html
|— companies.html
|— placements.html
|— contact.html
|
|— css/
|   style.css
|
|— images/
|   logo.png
|   banner.jpg
|   company1.png
|   company2.png
|   company3.png
|
|— video/
```

Page wise instructions

Page 1 – Home Page (index.html)

Aim

Design the Home page of the Campus Placement Application that introduces the placement portal and provides navigation to all other pages.

HTML Requirements

Students should create the following sections:

Header

- College Logo
- College Name
- Website Title

Use:

- <header>
-
- <h1>
- <h2>

Navigation Menu

Create navigation links for

- Home
- About
- Register
- Login
- Companies
- Contact

Use:

- <nav>
-

-
- <a>

Hero Section

Create a hero section containing

- Placement Banner
- Welcome Message
- Short Description
- Apply/Register Button
- Background Image or Video

Use:

- <section>
- <video> or background image
- <button>

Placement Highlights

Display information such as

- Number of Companies
- Highest Package
- Placement Percentage
- Students Placed

Use

- <section>
- <article>
- <div>

Footer

Include

- Copyright
- College Address
- Social Media Links

Use

- <footer>

CSS Requirements

Students should practice

- Flexbox
- Background Image
- Background Video
- Gradient Background
- Hover Effects
- Box Shadow
- Border Radius
- Responsive Width
- Padding
- Margin
- Text Alignment

Page 2 - About Department (about.html)

Aim

Create a webpage describing the Training & Placement Department.

HTML Requirements

Include

Department Introduction

- Department Overview
- Objectives
- Mission
- Vision

Use

- <section>
- <article>
- <p>

Placement Officer Details

Display

- Photo
- Name
- Designation

Use

-
- <figure>
- <figcaption>

Services Offered

Create an ordered or unordered list showing

- Campus Recruitment
- Soft Skills Training
- Mock Interviews
- Resume Building
- Career Guidance

Use

-
-
-

CSS Requirements

Practice

- Cards
- Box Shadow
- Border Radius
- Image Styling
- Typography
- Line Height
- Section Spacing

Page 3 – Student Registration (register.html)

Aim

Create a student registration form.

HTML Requirements

Create a registration form containing

- Full Name
- Roll Number
- Branch
- Gender

- Date of Birth
- Email
- Mobile Number
- Address
- Skills
- Resume Upload (Interface only)
- Password
- Confirm Password
- Register Button
- Reset Button

Use

- <form>
- <label>
- <input>
- <textarea>
- <select>
- <option>
- <button>

Apply HTML5 Validation

Students should use

- required
- placeholder
- maxlength
- minlength
- pattern
- email
- number
- date
- radio
- checkbox

CSS Requirements

Design

- Centered Form
- Rounded Input Boxes
- Focus Effects
- Button Hover
- Background Image
- Box Shadow
- Responsive Form Width

Page 4 - Registration Success (success.html)

Aim

Display a successful registration message after form submission.

HTML Requirements

Include

- Success Icon/Image
- Congratulations Message
- Registration Successful Message
- Login Button
- Home Button

Use

- `<section>`
- `<img>`
- `<button>`

CSS Requirements

Students should use

- Center Alignment
- Green Theme
- Animation (optional)
- Rounded Card
- Shadow Effects

Page 5 - Student Login (login.html)

Aim

Create a student login page.

HTML Requirements

Create login form with

- Username
- Password
- Remember Me
- Login Button
- Forgot Password Link
- New Registration Link

Use

- `<form>`
- `<input>`
- `<button>`
- `<a>`

CSS Requirements

Practice

- Login Card
- Center Alignment
- Hover Effects
- Gradient Background
- Box Shadow

Page 6 - Companies (companies.html)

Aim

Display companies participating in campus placements.

HTML Requirements

Display company information in cards or tables.

Each company should include

- Company Logo
- Company Name
- Package
- Eligibility
- Job Role
- Visit Date

Use

- <section>
- <article>
-
- <table>

CSS Requirements

Students should design

- Company Cards
- Image Styling
- Card Hover Effect
- Responsive Grid
- Alternate Table Row Colors

Page 7 - Contact (contact.html)

Aim

Create the Placement Department contact page.

HTML Requirements

Display

Contact Information

- Placement Officer Name
- Email
- Phone Number
- Office Address

Contact Form

Include

- Name
- Email
- Subject
- Message
- Submit Button

Use

- <form>
- <textarea>
- <button>

Location

Embed

- Google Map (iframe)

Use

- <iframe>

CSS Requirements

Practice

- Two-column Layout
 - Contact Cards
 - Form Styling
 - Responsive Design
 - Icons
 - Hover Effects
-

Common HTML5 Requirements (Applicable to All Pages)

Students must use:

- Semantic HTML5 elements (<header>, <nav>, <main>, <section>, <article>, <aside>, <footer>)
- Hyperlinks (<a>)
- Images ()
- Lists (,)
- Tables where required
- Forms and HTML5 validation
- Audio/Video (if required)
- Iframe for Google Maps
- Appropriate heading hierarchy (<h1> to <h6>)

Common CSS3 Requirements (Applicable to All Pages)

Students should demonstrate the use of:

- External CSS (style.css)
- CSS Selectors
- Colors (Hex/RGB)
- Background Images and Videos
- Fonts and Typography
- Margin and Padding
- Borders and Border Radius
- Box Model
- Box Shadow
- Text Shadow
- Flexbox Layout
- CSS Grid (optional)
- Display Properties
- Positioning
- Hover Effects
- CSS Transitions
- CSS Animations (optional)
- Media Queries for responsive design

Submission Guidelines

Students should submit:

1. A project folder named CampusPlacementApplication.
2. All seven HTML pages interconnected using hyperlinks.
3. One external stylesheet (style.css) inside the css folder.
4. All images and videos stored in their respective folders.
5. A homepage (index.html) that serves as the entry point to the application.
6. The website should function as a complete static campus placement portal with consistent navigation and professional styling.
